

DINO KUŽNIK **PRINT CATALOG** 2021

Prints come **signed, numbered** and with a **certificate of authenticity**.

All photographs are printed on museum quality **Canson Baryta Photographique 310g** paper, with archival ink and have a white border of 2-4 inches added, depending on the size of the print.

The majority of prints come in three different sizes (except promotional prints and if stated otherwise): **Small, Medium** and **Large**. Sizes are listed in inches (and cm) and differ depending on the photograph.

All the prices are for unmounted prints. Special printing techniques, different paper, processes, framing, and other requests will be the responsibility of the buyer where additional costs will apply. Please contact me directly for any custom requests.

If you are interested in purchasing an edition of a photograph that is not in this catalog, please contact me and reserve it for the next release.
